Ontario Premier Says in Interview That Dominion Government Authorities Tried To Make Peace With Him

TORONTO, Dec. 13 .- The Toronto Daily Star page story today quoted Premier Hepburn as asaying Dominion government authorities tried to make peace with him in the present dispute between the premier's supporters and those of Prime Minister Mackenzie King by sending Hon. J. G. Gardiner, minister of agriculture, to offer "certain concessions."

#### Provincial Expansion

The Government of British Columbia The Government of British Columbia is leaving in abeyance its proposal to annex the Yukon territory to that province, until the Royal Commission on Dominion-provincial relations brings in its report. The proposal to extend Alberta's boundaries to the Arctic Circle will not be compromised if it is also left 'on the table' in the meantime, for there is little likelihood that parliament would deal with it sconer in any event.

Something in the nature of a general Something in the nature of a general overhaul of governmental machinery will have to be made if the adjustments urged before the Commission are to be dealt with comprehensively, and the boundary-extension question can be appropriately taken up when the conferences are held which will have to follow the presentation of the Commission's report.

This is not—it has to be recognized—acception that affects not) British Occurrence with the presentation of the commission's report.

a question that affects only British Coa question that affects only British Co-lumbia and Alberta, respectively. The other provinces are very likely to insist that it affects them too, and to launch some demand for compensation if these two are to be given new territory now under direct Dominion control. When the under direct Dominion control. When the boundaries of Manitoba were extended, Ontario and Quebec had to be placated with large additions of territory, British Columbia put in a demand for increased subsidies, and the Maritimes insisted on a revision of their financial terms as a

itter of parallel treatment. History in that particular is likely to

#### Il Duce Has Another Urge

Signor Gayda, editor-in-chief of Il Duce's kept press, has changed the tune. He has sent out the signal to his co-work-ers to drop the Tunisian demand and clamor for a share in the operation of the Sucs canal. He says: "Administration of the Sucs canal must be by representative of all nations which make use of the canal proportion to the extent of their traf-

fic."

Italy did not dig the canal, nor help to dig it. It had a wide open opportunity to do so, but left other countries to take the risk—and it was a risk. Now that the venture has proved a financial success it modestly demands that it "must" be allowed a say in the running of the concern, and a share of the profits, if any.
On political grounds, Italy has no claim to representation on the board of directors. The Suce canal is operated under

The Suez canal is operated under tors. The Suez canal is operated more treaty as a neutral waterway, open at all times to trading ships and warships of any nation. No country has better cause to know this than Italy; for the canal was not closed against its warships and troop-

not closed against its warangs and though ships when—contrary to its most solemn pledges—it was waging savage and unprovoked war against abyssinia.

Maybe France and Britain will concede Italy a share in the management of the waterway. If they do it will be a gift, not a concession to which Italy has any districtive moral claim. And not it is financial or moral claim. And not, it is Intaincal or moral chain. And the let us to be supposed, with any exlectation that Italy will keep whatever promises it may make to get what it wants.

#### The Why of It

Economics Minister Funk has issued a Economics Minister Funk has issued a new decree which will make clearer to outsiders than it may have been what is the purpose behind the official robbery of the Jews in Germany. The object, it is ex-plained, is the "full Aryanization of Ger-man economics, German real estate, and other important parts of the national wealth"

ce it is cheaper to take property

sweaths."

Since it is cheaper to take property than to buy it, Herr Funk and his associates are taking it, by a series of edicts which compel the Jews to "liquidate" without allowing them to sell. By this happy expedient, not only is the property "Azyanized," but the Jews are impover-ished, which appears to be an essential part of the business.

The explanation is not only informative. It is also suggestive. It sasigns not only a motive to the edicts, but discloses the reasonwhy Aryanization has to be accomplished by force. The Jews, in free competition with 'the Aryans, have accumulated a disproportionate amount of wealth. Which means they have shown themselves superior in enterprise, industry, managerical shifty and forceignt. So much so that they have to be put out of

business by official edicts, backed by police, troops and mobs. And not only put out of business, but deprived of the wealth they have acquired.

they have acquired.

The Aryans cannot compete with the
Jews; that is what it all comes to, though
it probably was not in the mind of Herr
Funk to admit the point. What the world
is witnessing in Germany is the triumph
of physical power over intellect. Herr
Funk proclaims it in his edict.

#### What is a "Conspiracy"?

Premier Hepburn denies that he has entered into a conspiracy with Premier Duplessis to bring about the retirement of Prime Minister King and set up a dummy Dominion government controlled

A good deal probably depends on what is meant by "conspiracy." To assume the two premiers formulated a treaty setting two premiers formulated a treaty setting forth these purposes in set terms would be to suppose they have unbounded faith in each other, which is not likely; and also to suppose they have adopted the pattern of the Black Hand Society. But if it is still true that actions speak louder than still true that actions speak found that words it will take more than denials of a documented agreement to convince the public there is no foundation for the charge made by Hon. Norman Rogers and Hon. C. D. Howe.

There is such a thing as conspiracy by

Even in his denial of the acc Even in his denial of the accusation Mr. Hepburn makes clear that the deposition of Mr. King is in his opinion a consummation devoutely to be wished. If—with or without a formal plot—the two premiers have not been trying to bring this to pass, they have been curi this to pass, they have been curiously sug-gestive in some of their public statements. So much so that the Dominion ministers have pretty good ground to suspect this team play is something more than the ac-cidental conjunction of individual man-

The two premiers have made plain that if they do not want to dominate the poliif they do not want to dominate the poli-cies of the Dominion their objectives are not enough different from that to make much practical difference. They are out-standing preachers of sectionalism as against national unity. If they have been playing solo parts, their success would mean precisely what Messrs. Rogers and Howe say they are aiming at. Whatever his defects, Mr. King has it to his credit that Messrs. Hepburn and Duulessix recomize him as the man who

to his credit that Messrs. Hepburn and Duplessis recognize him as the man who is blocking their way to dictation of fed-eral policies in the interests of Ontario and Quebec—or of the industrial and financial interests with which the names of those nces stand identified throughout the rest of Canada.

Throughout Canada there are hundreds of thousands of men who measure up to this standard of good citizenship. Their savings in Life Insurance accomplish a two-fold purpose. First, they guarantee that their families will continue to have food, clothing, shelter and other necessities of life. Secondly, they guarantee for themselves financial independence in old age.

As good citizens, these men also gain satisfaction from the fact that their accumulated savings in Life Insurance are invested in Dominion, Provincial and Municipal securities—industries and utilities homes, farms and schools-for the benefit of all

The measure of

A GOOD CITIZEN

"No personal possession definitely reflects the character

"We personal possession definitely reliects the character of a man and his love for his family more than does Life Insurance. Adequate Life Insurance means to a man that sense of security and contentment that allows him to much better enjoy the happiness of his worldly goods, as he has that consolation and peace of mind that, whatever happens to him, he has played the game as a worthy citizen."

-T. F. KINGSMILL, Retiring Mayor of London, Ontario.

Watch The Bulletin for Correct Solution to Each Puzzle Drawing

Fuzzle Drawing

The answer to the first puzzle drawing in The
Bulletin Advertisers Puzzle Contest will appear
early in January, 1939—so be sure to get a copy of
THE BULLETIN EVERY DAY.
You will be able to check your answers with those
that will be used by the judges and certified correct.
Be sure that you keep your list because it will be
lots of fun comparing your answers with the correct list.

under full steam for Christmas

THAT smile means that there is a good Christmas ahead for him, and that he's forging toward it under full power, hitting on all six. He's a BULLETIN CARRIER who's working hard delivering papers to his customers every day, making his collections, paying his wholeasie bills and saving his earnings for a Christmas splurge that will bring happiness to a lot of people, including himself. His pockets budging with lists of the things he is going to buy for mother, father, brothers, sisters, cousins, aunts and grandmass and grandpas (and for himself) he does his job with the smile that won't come off!
